An Orientation programme was arranged for those children who are interested in appearing for the Trinity College-Graded Examination in Spoken English.

This was to bring out the importance of Spoken English. This also made them aware of how the examination is conducted and how it is different from other exams. It was explained to them how the graded exam had graded grammatical construction from simple to complex.

Mr. John D'Souza who conducted the programme showed the children a powerpoint presentation. The presentation was an exam situation – a Test of a child of Grade 5.

The session was appreciated by the teachers and the students as it was very interactive.
