NAMES OF PARTICIPANTS	:	

A BRIEF REPORT.

Samuel Johnson said, "Learning is a treasure which accompanies its owner everywhere". We, at Bishop's are encouraged to Learn not just from books.

This year, the 12th National Cyber Olympiad was held on the 21st of September. Just like all the previous years, this year's Olympiad too had 50 extremely challenging questions that really tested the knowledge of the participants. The participants from Classes 3 to 10 were at their wit's end to answer the questions. The paper pattern was as follows: 10 questions on Mental Ability, 10 on Logical & Analytical Reasoning and 30 on Computers & Information Technology.

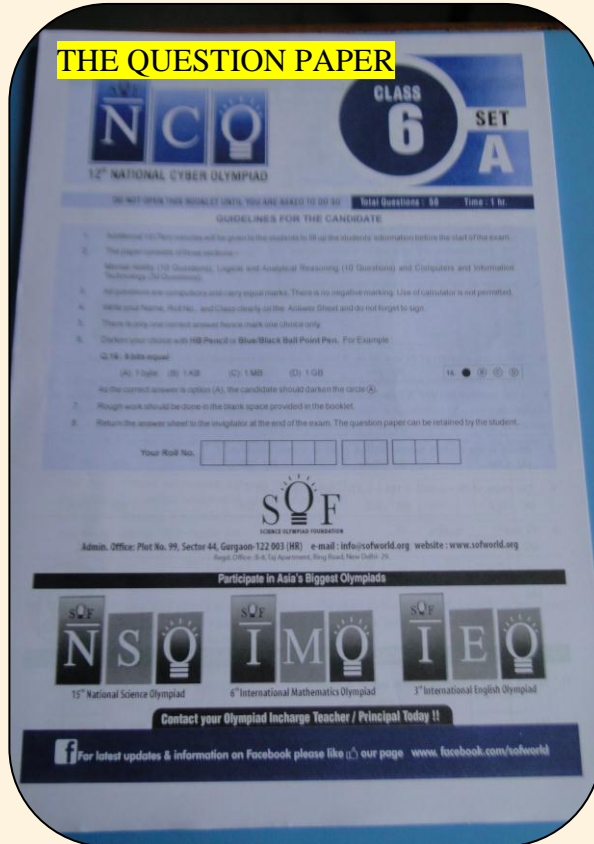

It was an interesting paper which stimulated the grey cells of our brain! We sincerely hope that many of the participants make our School proud by qualifying for the second level of the Olympiad. "Play Up Bishop's! Never Let Our Colours Fall!"
