A BRIEF REPORT

In keeping with the teachings of Gandhiji of keeping one's neighbourhood clean the students of classes IX and X went out in the area around the school and cleaned the garbage strewn all around. Armed with shovels, brooms, garbage bags etc the students picked up all the plastic and paper that they found on the ground. This they did with great enthusiasm, ignoring the curious glances of the bystanders and locals. After tiring but highly satisfying experience towards community service students returned to the school; their message to the surrounding populace loud and clear -- cleanliness is next to godliness.
