***“ELECTIONS IS
NOT THE BEST
TEST OF
DEMOCRACY”***

Debate is a method of interactive and representational argument. The outcome of a debate depends upon consensus or some formal way of reaching a resolution, rather than the objective facts as such. In a formal debating contest, there are rules for participants to discuss and decide on differences, within a framework defining how they will interact.

The Inter school Debate Fest was held at MIT College Of engineering, Kothrud .18 schools participated in this Fest.

The participants from The Bishops School, Camp were-

Ayushman Chopra	speaking "For" the topic
Aditya Khandelwal	speaking " Against" the topic

The Topic for the Debate was " ELECTIONS IS NOT THE BEST TEST FOR DEMOCRACY" . The jury comprised of eminent personalities from different walks of life. The topic was well understood by all the participants and they were able to compete to the best of their ability. The points spoken by the participants were appreciated by the judges and the audience alike. The results were as follows-

Symbiosis School	1ST PLACE
Vidya Valley	2ND PLACE
The Bishops School, Camp	3RD PLACE

On the whole it as an impeccably organized and well contested debate.
