<b>CLASS/CLASSES INVOLVED</b>	:	<b>CLASS 10.</b>
<b>NAMES OF PARTICIPANTS</b>	:	<b>Team Of 60 students.</b>

**A BRIEF REPORT.**

The reality of how the azure of the serene Mula-Mutha River has converted into a vessel of grime and filth is indeed tragic.

To work on converting this indecorous river into a cleaner and better water body, **THE INTERNATIONAL COASTAL CLEANUP** in association with **THE INDIAN MARITIME FOUNDATION** joined hands with our school to **make a difference**, as their motto clearly suggests.

More than 60 students from the 10th grade embarked on this journey and were surprised as to how much could actually be done for our immediate environment.

We found over 600 plastic bags in an area of approximately 20m by 20m! The other findings were disturbing and highly saddening. Other peculiar items we managed to find were bones, large plastic bags and incredulous amounts of alcohol bottles.

As we were provided with all the equipment necessary, which included gloves and material to record all that we acquired, we were able to substantiate and record all our findings.

I, along with all the volunteers, am deeply humbled by this opportunity. However, I believe that this initiative is merely a tiny pearl in the ocean for all that we can do for our surroundings

IT'S TIME TO  
START YOUR SEA CHANGE

Ocean Conservancy, established in 1972, promotes healthy and diverse ocean ecosystems and opposes practices that threaten ocean life and human well-being. Through research, education, and science-based advocacy, Ocean Conservancy informs, inspires, and empowers people to speak and act on behalf of the ocean. Ocean Conservancy is the world's foremost advocate for the ocean.
