## **Cyber Crime Workshop**

**On the 23<sup>rd</sup> and 24<sup>th</sup> of July, 2013, the students from classes 5 to 8 attended an hour long interactive workshop titled “Cyber Crime and You”, jointly hosted by Asian School of Cyber Laws and DATA64 Cyber Solutions Pvt Ltd.**

**The workshop focused on awareness about cyber crime and all the problems one might come across while using the internet. It gave students information on ways in which they could secure their safety while using the internet, while also keeping themselves updated on various topics such as how to secure the Wi-Fi networks that they use at their homes. The workshop also touched upon topics such as Facebook law and the implications of their actions on Facebook and other social networking sites.**

**The workshop was interesting and engrossing as the topic being dealt with was one that the students could relate to. It was truly instrumental in teaching them that “to be forewarned is to be forearmed”.**
