#### **A BRIEF REPORT**

The Students of class V were taken for an overnight camp to Pirangut. In the lap of nature and far away from the hustle and bustle of city life the students enjoyed staying in tents.

It was a beautiful place with an amphitheatre. Electricity and water supply was done with the help of solar and wind energy. There was a wind will and solar panels everywhere. The students learnt the importance of saving electricity and how wind & solar energy can be utilized for various purposes. All three days were packed with lot of adventurous activities and games. The Students enjoyed the camp thoroughly.
