A BRIEF REPORT

Monsoon hikes are moments filled with joy and happiness. It is an opportunity for fun and adventure in outdoor life. The Tikona fort was built by Shivaji for trading purposes. The hike to the fort was very strenuous as the pathway was very slippery and it was raining continuously. But the breathtaking view of the mountains and valleys covered with fog seemed to rejuvenate everyone. The students gained knowledge about the rain pattern at a higher altitude in relation to those on the plains. After the long trek they enjoyed a sumptuous meal at 'Sidhu ka Dhaba'. It was a wonderful trek enjoyed by all the students.
