ORGANIZED BY : T.E.R.I, The Energy and Resources Institute.

(For inter-school competitions and
Outside school activities)

CLASS/CLASSES INVOLVED : Class 9

NAMES OF PARTICIPANTS : SHREEYAN CHAUDHARY AND KIRTI RANKA.

A BRIEF REPORT.

Bird watching. A term used quite often to determine people mostly lost in their own world. Only a few get a chance to actually do so.

On the 10th of February 2012, T.E.R.I (The Energy and Resources Institute) had organized an outing to 'Durshet Nature Trails' situated at Khopoli. Two children each from the participating schools, were given this opportunity. It was less a birding and more of a 'relax and enjoy' trip for the two of us. Although there were not many birds but the few spotted we were also worth it. The ones 'under the spotlight' consisted of the purple sunbird, the shikra, the common parrot and the owlet.

The weather was rather pleasant but a little too hot for the birds to actually come out and show off their beautiful colors. We also had the experience of visiting the seasonal 'Amba' river, which was unfortunately dry during the time of our visit. However, it was our first experience of seeing a dried up river, for many of us including me.

Overall, it was a wonderful experience for all of us and a great learning one too.

We extend our sincere thanks to our C.E.O and Honorary secretary, Mr Frank Freese, Mr. Ferdinand Bunyan and Mrs S. Guha for this wonderful opportunity.
