ORGANIZED BY	:	Times NIE
(For inter-school competitions and Outside school activities)	:	
CLASS/CLASSES INVOLVED	:	CLASSES 8 AND 9
NAMES OF PARTICIPANTS	:	10 students of classes 8 and 9

A BRIEF REPORT.

My Green Earth is an initiative by **The Times of India (TOI) NIE** dedicated towards educating today's citizens about the importance of our environment. It is an interactive exhibition where students from various schools set up stalls to display their ideas about environment.

The 4th Times NIE 'My Green Earth' exhibition was hosted at **Amanora Town Centre** on the 1st of Feb. . The topics ranged from 'Electric Recycling' to 'Water Disasters' and 'Global Warming'. Our school chose the topic – **Advantages of Recycling**.

A team of students worked hard for days preparing charts, models and presentations. On the day of the expo, a team of 10 students along with Ms. R.Shaikh- our teacher, set out for Amanora. The exhibition started at 10 am in the morning. As students and parents started filing in to view our stalls, we were thoroughly involved in explaining and demonstrating our models. Some of the interesting stalls included one that used hydroelectricity to power a light bulb, and one that provided energy through a speedbraker! Later on in the afternoon, we had a quiz and a few activities, where we won three prizes! Then, the prizes were announced. The projects were judged based on their concept, presentation, innovation etc. We were thrilled when our school was awarded the '**most eco-friendly**' prize.

I am grateful to the school for providing us with such a splendid opportunity. This has been a great learning experience for all of us, reminding us all to recycle today for a better tomorrow.
