Imagine you are navigating a ship through a fierce storm, if your priority were merely to appease everyone on board, you might drift off course and become lost at sea. The Leadership of a skilled captain is steering through rough seas, serving both as a steadying force and a mentor for the future.

Mr. Luke has been a beacon of guidance for all of us. His approach not only enhances leadership effectiveness but also fosters a culture of mutual respect and high performance within our organization. His remarkable achievements embody the values we aspire to uphold in our institution.

Overall, the felicitation programme was a great motivation for each one of us to excel and strive towards excellence.
